

# WHITE ASH

SCIENTIFIC NAME: *Fraxinus americana*

## DISTRIBUTION AND AVAILABILITY

- Eastern North America
- Western North America (Coastal)
- Readily Available

### COLOR:

#### Range Variation

The heartwood is a light to medium brown color. Sapwood can be very wide and tends to be a beige or light brown; not always clearly or sharply demarcated from heartwood

### DISCLAIMER

A single sample may not accurately represent the full range of natural variations to be expected. Due to the inherent properties and characteristics of wood, these samples should be viewed as an approximation of what can be obtained. Some wood species have more natural variance in appearance than others. We have made every effort to make colors as accurate as possible. Colors on screen may vary depending on your screen setting and resolution.

**WHITE ASH INFORMATION**

		42 lbs/ft <sup>3</sup> (675 kg/m <sup>3</sup> )
<b>AVERAGE DRIED WEIGHT</b>		
	GRAIN   TEXTURE	Has a medium to coarse texture similar to oak. The grain is almost always straight and regular
	PRICING   AVAILABILITY	Moderate. Quarter Cut available at a premium. <i>Readily Available</i>
